

BT100 & BT200

Your Efficient and Accurate Line of Battery Testers

The BT100 and the BT200 are battery, cranking, and charging system testers. Ideal for small cars, light trucks, RVs, motorcycles, ATVs, boats, and more. These devices can perform quick, accurate, and efficient tests. Their price, versatility, and dealer-level accuracy make them the right testers for the DIY community. Featuring an easy-to-use software, the BT100 and BT200 help first-time operators get the job done with ease. With these tools, you can test a wide array of batteries and get results in as little as 10 seconds.

BT100 Features

- Battery Test: State of Health, State of Charge, Voltage, Current, Rating, and Analysis
- Cranking Test: Cranking Voltage, Time, and Analysis
- Charging Test: Voltage Output and Analysis
- Reverse Polarity Protection
- Supports 12V GEL, AGM, EFB, and Regular Flooded Batteries
- Intuitive Interface with Step-By-Step Guided Procedures
- Small, Compact, and Durable Enclosure
- Premium Copper Clamps
- Data Review Function Retrieves The Latest Reports
- Testing Capacity of 100-2000 CCA

BT200 Features

All of the BT 100 Features, Plus:

- 2.4" LCD Color Screen
- Supports 24V VRLA, GEL, AGM, EFB, and Regular Flooded Batteries

What's In the Box

- BT100 or BT200 Battery Tester
- User Manual

BT100 Specs

- Display: 128x64 LCD
- Working Temperature: -20°C to 60°C
- Storage Temperature: -20°C to 70°C
- Dimensions: 127*76.2*25.4 mm
- Weight: 454g

BT200 Specs

- Display: 2.4" LCD Color Screen
- Display Resolution: 320*240Pixels
- Cable Reach: 919.99 mm
- Storage Temperature: -20°C to 60°C
- Working Temperature: -20°C to 70°C
- Dimensions (L*W*H): 177.8*94.49*33.02 mm
- Weight: 454g
