

BTMOBILE Lite

Your On-The-Go Battery Testing Tool

The BTMOBILE Lite is a wireless battery starting and charging system analyzer for 12V batteries in cars, motorcycles, trucks, RVs, ATVs, SUVs, boats, yachts, mowers, and even golf carts. It offers a convenient way to run battery, cranking, and charging tests from one device that can be stored in the glove box. Simply connect the clamps to the battery terminals correctly, then run all the tests from your phone. This is an easy-to-use product ideal for the DIY community while providing reliable results with OEM-level accuracy.

Features

- Battery Test: State of Health, State of Charge, Voltage, Current, Rating, and Analysis
- Cranking Test: Cranking Voltage, Time, and Analysis
- Charging System Test: Voltage Output and Analysis
- Provides Accurate Results in Less Than 10 Seconds
- Includes 2 LED Indicators
