T-Darts

Unlock Your Potential

With the T-Darts, technicians and key specialists unlock a new dimension of analysis and programming. The T-Ninja Pro supports chip recognition and frequency detection when used together with the T-Darts, a TOPDON-designed Transponder & Remote Tester Tool, enables users to perform key programming for mainstream automobiles available on the global market. Get excellent coverage with the T-Darts, covering over 100 different transponder chips. The T-Darts also features outstanding practicality, with bluetooth connectivity, lengthened RF detection range, and the option to run on four AAA batteries. Pairing the T-Darts and T-Ninja Pro gives professionals all the versatility and capabilities they would need to turn profits and maximize efficiency. We will continue to upgrade and unlock more features in the future.
