

TB6000Pro

Smart Charger&Tester

TB6000Pro is a smart 2-in-1 battery charger and tester. Featuring 9-step smart charging technology for fast and safe charging of 6v/12v lead-acid batteries and 12v lithium batteries. The TB6000Pro can be connected to a smartphone via Bluetooth and the charging process can be DIY. It supports voltage 6-16V, current 1-6A adjustment with precision 0.1, timed charging via the app.

Features

- Innovative Microprocessor Technology
- Customize charging 3 modes and set the run times
- Timed automatic charging
- intelligent charging mode generates a charging detection report and compares the battery status before and after
